The following list of KOLLENYI's probable contacts and acquaintances, and the biographic data on them, were extracted from his 201 file for the period 1945 to 1955. The exact relationship, when specified in the file, is included with the name. Traces were not run on them; because without feed-back and focus from CASCOPE, we are hesitant to conduct more extensive research.

Please sanitize and pass to CASCOPE. If you also are unable to identify the several ancient crypts included, please change these entries to LNU, fnu.

1. Jence <sup>H</sup>AMBRUS apparently worked for the Americans through KOLLENYI and for the French through Josef <sup>H</sup>VEGH.\* In 1950 he was arrested in Hungary while on an exfiltration mission. [ ]

2. Nikolous <sup>H</sup>ARNOLD met Subject circa 1954. He is probably identical to Dr. Nikolaus ARNOLD, born 1 May 1899 in Rumania, who in 1954 was a journalist and was associated in some way with Josef GINSBURG.

3. Phu <sup>H</sup>BATJAS worked for Subject in "Developmental Project 35" circa 1949.

4. Sandor <sup>H</sup>BIRO was a person whom Subject tried to introduce to Emil SZALANCZY in 1948, possibly as an agent candidate.
